

The swans at Hampton Court, England, are quite tame and often leave their accustomed pursuits to accept food from visitors. Photo shows one of them accepting a biscuit from a little lady, with the others patiently awaiting their turns.

## She found again the glow and sparkle of perfect health

Sparkling eyes—vivid coloring—that charm of personality which fairly radiates from a superbly healthy body—

Why do so many women who could possess these natural powers let them slip by?

Health and vigor are *normal*, not exceptional. Thousands lose them because they neglect the body's two most vital needs:

—Building up the worn-down tissues from day to day.

—Removing daily the poisonous waste.

The fresh, living yeast plant in Fleischmann's Yeast cake contains a natural food—with the very elements which help the body perform these two vital functions.

Like any other plant or vegetable, yeast produces the best results when fresh and "green"—not dried or "killed." Fleischmann's Yeast is the highest grade living yeast—always fresh. It is not a medicine, it is a natural food. It helps to "tone" up the whole system and assures regular daily elimination. *Results cannot be expected unless it is eaten regularly.*

Everywhere physicians and hospitals are prescribing Fleischmann's Yeast to correct constipation, skin disorders and to restore appetite and digestion.

### "And now I never need laxatives"

A business girl writes that the extra work of a busy summer had exhausted her. "I was run down and badly constipated" she says, "and had one boil after another."

For several months she added 2 to 3 cakes of Fleischmann's Yeast to her diet every day. "the boils disappeared after the first week and now I never need laxatives."

Eat two or three cakes a day regularly—plain, or spread on crackers, or mixed with water or milk. If you prefer, get six cakes at a time. They will keep in a cool, dry place for two or three days. Begin at once to know what real health means. Be sure you get Fleischmann's Yeast.
